MGP COLLEGE IQAC

Roles and responsibilities

The moderator's role is to ensure consistency. The provider is responsible for the management of the moderation process. A generic standard regarding the moderation of assessment is detailed in this document. One (1) moderator, based on expertise, usually checks the work of several assessors.

Roles and responsibilities related to the assessment and examination process are described in Policy

Moderation processes

Internal and External moderators:

The examination papers and projects of all exit level modules, terminal modules and projects must be externally moderated. Internal MGP staff members will be used as internal moderators for all modules not linked to exit level outcomes. External moderators must possess subject matter expertise and experience. All external moderators must hold a qualification at least at the level of or higher than the qualification they moderate and must be experienced in higher education. The Head of School is responsible for contracting external moderators. A nominal fee will be paid to the external moderator. The external moderator must submit a report on their findings to MGP after completing moderation. External moderators must be subject to performance reviews and be rotated in a three-year cycle.

All requirements for assessment and moderation will align to the rules, legislation and specifications as stipulated by the Council on Higher Education (CHE) and the regulatory council, where applicable.

External moderators:

The external moderator's academic/professional qualifications should be appropriate to the programme to be examined. Both the level and the subject of the moderator's qualifications should generally be at least at the level of or higher than the programme/qualification/module under moderation.

The external moderators should have appropriate standing, expertise and experience to maintain comparability of standards and may be indicated by:

1. The present (or last, if retired) post and place of work.
2. The range and scope of experience across higher education/professions; and
3. Current and recent active involvement in research/scholarly/professional activities in the relevant field of study.

An external moderator should have enough recent external examining or comparable related experience to indicate competence to assess students in the relevant subject. If the proposed moderator has no previous experience at the appropriate level, the application should be supported by either:

1. Other moderation experience.
2. Extensive internal moderation experience.
3. Other relevant and recent experience likely to support the moderator role.

Moderators must be selected from a wide variety of professional contexts and traditions to the benefit of the Programme with wide-ranging external scrutiny.

MGP COLLEGE IQAC

✦ Conditions for External Moderators:

1. External moderators should not be over-extended by their external examining duties.
2. The external moderator should not currently hold more than the equivalent of two other substantial undergraduate moderator appointments.
3. External moderators should be impartial in judgement and should not have previous close involvement with MGP that might compromise objectivity.
4. Over the last five years the proposed external moderator should not have been:
 - a. A member of staff, a student, or a near relative of a member of staff who is involved with the Programme.
 - b. An examiner of the Programme in MGP.
5. The proposed external moderator should not be:
 - a. Personally associated with the sponsorship of students.
 - b. Required to assess colleagues who are recruited as students to the programme.
 - c. In a position to significantly influence the future employment of students on the programme.
 - d. Involved in teaching or delivery of seminars or lectures.
 - e. Likely to be involved with student placements or training in the moderator's organisation.

Proposed moderators without prior experience should, where possible, join an experienced team of external moderators or, where there is only one external moderator, work initially alongside them, possibly on a related Programme. This initial period should include involvement in the final stages of assessment for the qualification.

Conditions for Moderator Teams:

1. There should not be more than one moderator from the same institution in the team of external moderators, except in a complex Programme, involving a very large number of discrete subject areas.
2. There should be an appropriate balance of expertise in the team of external moderators.
3. The proposed external moderator should complement the external moderation team in terms of expertise and moderation experience.
4. There should be an appropriate balance between academic and professional practitioners, where possible.
5. A range of academic perspectives relevant to the Programme should be represented in the external moderating team.
6. Where the Programme is associated with or may lead to a professional qualification, there should be at least one practitioner with appropriate experience in the team.
7. There should be sufficient and wide ranging external moderating experience in the team as a whole to ensure a consistent standard is maintained across subjects.

All external moderators are usually appointed in each examination period.

External moderators have the right to adjust marks and must approve the final marks list for the qualification concerned. They must also comment on:

1. The validity of the assessment instruments in relation to the specified learning outcomes.
2. The quality of student performance and the standard of student attainment across the spectrum of results in relation to the learning outcomes.
3. The reliability of the marking process.
4. Performance against national standards.
5. The quality of feedback given to students.

MGP COLLEGE IQAC

MGP must provide the external moderator with the following to enable the moderation function:

1. Programme structure and credit allocation.

2. Course outline.
3. Exit level outcomes.
4. Final examination paper and memoranda.
5. Supplementary exam paper and memoranda.
6. Profile of all students registered for the module.
7. A contract.
8. Any external moderator reports.

The external moderator is expected to mark 20% of the scripts and randomly check 20% of the scripts. The following procedures apply:

1. At minimum 20% of the scripts must be moderated (internally and externally), with a minimum of 5 and maximum of 20. Where these are less than 20 scripts in total, all must be moderated.
2. It is advised that the scripts in the 35%-50% and 75%-85% mark range be moderated. All moderation must be marked in green only. The moderator must sign the script after moderation is completed and inform the assessor of any corrections by completing the moderator's part of the assessment report.
3. In the case of external moderation, reports from the external moderators must be returned to the Head of School. Where problems are raised, these are discussed with the lecturer/ assessor concerned, and Head of School ensures that agreed improvements are affected.

Student Access to Assessment Feedback

Good feedback on assessed work tells the student the following:

1. What are the good or essential features of the assessed work,
2. What are the poor or less successful features of the assessed work,
- and 3. How the student can improve in this piece of work.

All items of assessment completed by a student should be marked promptly and returned to the student with feedback and the mark obtained.

Feedback may include discussion, written comments on work, and lists of common mistakes. In providing feedback, the assessor must anticipate and expect student success.

Finalisation of Marks

For the full Assessment and Examination Policy and Process please refer to Policy Assessment of learning and Policy Examination.

All examination marks will be reviewed, vetted and approved for final release at an Academic Committee Meeting.

The final mark for exit level modules and qualifications must be signed off by the external moderator.

The Academic Committee must be certain that the Registrar has done all necessary Quality checks on the reliability and security of the results.

MGP COLLEGE IQAC

The following procedures could be used for adjustments of final examination marks:

1. Academic Quality will not be compromised in any form or manner. All mark adjustments must be approved by the relevant Head of School and approved by the Academic Committee.
2. The Academic Committee should maintain strict and detailed records of adjustments made motivations provided. A note indicating that adjustments were made must accompany the schedule submitted to the Registrar. Detailed records of adjustments will be sampled and checked by the Assessment Sub-Committee before ratification of the Final Results.
3. Discourage others from plagiarising by observing the practices above in accordance with the institutional Policy on Plagiarism

Plagiarism as a Form of Misconduct

For the Plagiarism Policy and Process please refer to Policy Student Plagiarism.

In the case of suspected plagiarism, the student will receive feedback and offered an opportunity to resubmit. Should the student's resubmission be suspected of plagiarism, the Study Administration and Engagement Unit will report the incident firstly to the Head of School and the Registrar. The Registrar will lead a formal investigation into the matter, where after the student must attend a hearing.

In the case of proven misconduct, the following penalties are available:

1. Reduction or cancellation of the mark for the assessment.
2. Requirement to do further work or repeat work in relation to which misconduct occurred.
3. Refusal or cancellation of credit for the course.
4. Suspension or expulsion

To ensure the security of its processes the Registrar conducts its operations as follows:

1. Meetings with the staff body to discuss the examination protocol in terms of setting of examination papers.
2. The papers are set in chronological order and stored in a secure repository. Please refer policy on the storage of student results in alignment with the Protection of Personal Information Act.
3. The appointed examiners will be responsible to type question papers.
4. Examiners may do their work on personal computers not linked to an external network and all their work should be done in a restricted area.
5. The source documents should be filed with assessment/examinations.

Accountabilities

The Academic Committee is responsible for review and approval of this policy on an annual basis. The policy is to be distributed to staff via induction and distributed to students and MGP's community via the website and other publications.

Moderation

Moderation of assessment is an organized procedure which ensures use of valid assessment material and consistent application of criteria, to provide fair academic judgment and reliable outcome in the form of marks or grades. It assures appropriate designing and implementation of assessment activities along with generation of valid and reliable results.

Integration of moderation process with assessment system is imperative for the development of academic quality in higher educational institutions as :

MGP COLLEGE IQAC

- It addresses any difference in individual judgments of different evaluators.
- It ensures that all achievements in the form of marks and grades across courses reflect achievement of same level of standard.
- It is also carried out to develop a common understanding of the standards and criteria and to recognize performance which demonstrates that standard or fulfils that criteria.

Moderation may be conducted in case there are large number of fail grades or high grades, or when large numbers of students who have received the same grade or clustering of students on letter grades, or when there are discrepancies between grades allocated to individual students in different courses, or to find out the difficulty level of the question paper or whether the assessments modes used cover the entire syllabus or not.

Applicability - Moderation should be made applicable to both external and internal modes of assessment. All programs and courses should indicate, as part of their statements on assessment, arrangements for the moderation of assessed work. This can be done through formulation of a moderation policy and implemented across all programs and courses of instruction and delivery, i.e. even those programs delivered *via* distance or online mode. The time frame for the moderation should be linked with the time frame for assessment.

In the event a moderation is triggered, an evaluation should begin with a discussion on the following (though not exhaustive) lines:

- What are the rubrics used for each of the different types of assessment in the course? Is a standardized/prescribed rubric used or has the instructor developed his/ her own rubric. If the instructor is using a personally framed rubric, or if there is no identified rubric, then how does the assessment map to learning outcomes?
- The difficulty level of the questions included in the assessments, i.e., is the difficulty level on the extremes, very easy or very hard.
- The manner of awarding marks, i.e., has the correction been at the extremes, liberal or tough.

Each department should establish a committee and designate roles and responsibilities at different levels for smooth working of the moderation process. In order to maintain neutrality, it should be ensured that moderator should not be the assessor. Staff members should be trained professionally in assessment techniques and moderation procedures. All assessment material produced by learner including examination sheets, assignments, project reports, research reports etc. should be examined.

Higher educational institutions should be encouraged to make the moderation process online. In this system, assessment plans, moderation plans, assessment tools, samples of which may be submitted online. Moderation reports should be generated online so that progress can be tracked.

The moderation should not be restricted to just assessment but also include moderation of content and assessment design.

1. Background/Preamble:

Education plays enormously significant role in building of a nation. There are quite a large number of educational institutions, engaged in imparting education in our country. Majority of them have entered recently into semester system to match with international educational pattern. However, our present education system is churning out youth who have to compete locally, regionally, nationally as well as globally. The present alarming situation necessitates transformation and/or redesigning of system, not only by introducing innovations but developing learner-centric approach.

Majority of Indian higher education institutions have been following the system which obstructs the flexibility for the students to study the subjects/courses of their choice and their mobility to different institutions. There is need to allow the flexibility in education system, so that students depending upon their interests can choose inter-disciplinary, intra-disciplinary and skill-based courses. This can only be possible when choice based credit system (CBCS), an internationally acknowledged system, is adopted. The choice based credit system not only offers opportunities and avenues to learn core subjects but also explore additional avenues of learning beyond the core subjects for holistic development of an individual. The CBCS will undoubtedly facilitate benchmarking of our courses with best international academic practices.

1.1 Preface

In a bid to fine tune our scientific education system to the global standards & practices, the Credit-Grade based performance and assessment system will be implemented with effect from June 2019 onwards for all the Under Graduate Programmes (UG) under the Faculty of Science, Savitribai Phule Pune University, Pune, starting with First Year.

With the advent of frontier science, technology and ever-changing expectations from the Industry and Society, it has become imperative to relook at the structure and subject contents of various UG courses to make it contemporary and relevant.

As per the decision by the authorities of Savitribai Phule Pune University, the faculty of Science has prepared the choice based credit system and its structure. The revised course is of 132 credits and 1 credit is equivalent to 15 hours. Assessments in credit system consist of A) In-semester continuous assessment and B) End-semester assessment for the Theory head and Term Work/ Practical / Oral / Presentation at the end of the semester for Practical, Oral, Seminar and Project Head.

The faculty of Science has shouldered the idea of incorporating latest advances in Science and technology and equip the subject/syllabus contents with latest and relevant topics and know-hows. Accordingly the new structure and syllabi are being introduced, to be implemented from the academic year 2019-20 from First Year and it will continue for subsequent years.

1. All UG programmes, under Faculty of Science shall be offered with credit system.
2. All the B.Sc. programmes running under the Faculty of Science will be of three years duration.
3. The total no. of credits required for the completion of the programme is 132 credits.
4. One credit is equivalent to 15 hours.
5. A student is required to earn 132 credits in a minimum period of six semesters.
6. There are eight mandatory credits to be earned by the students for the award of degree.
7. Final CGPA will be calculated on the basis of 132 credits.
8. There is 15 weeks of teacher-student interaction during the semester.
9. The 15 week is divided into 12 weeks teaching and 3 weeks for continuous assessment including preparation time to students during the semester.

10. The workload will be calculated on the basis of 12 weeks teaching only.

1.2 Advantages of the choice based credit system:

1. Shift in focus from the teacher-centric to student-centric education.
2. Student may undertake as many credits as they can cope with (without repeating all courses in a given semester if they fail in one/more courses).
3. CBCS allows students to choose inter-disciplinary, intra-disciplinary courses, skill oriented papers (even from other disciplines according to their learning needs, interests and aptitude) and more flexibility for students.
4. CBCS makes education broad-based and at par with global standards. One can take credits by combining unique combinations. For example, Physics with Economics, Microbiology with Chemistry or Environment Science etc.
5. CBCS offers flexibility for students to study at different times and at different institutions to complete one course (ease mobility of students). Credits earned at one institution can be transferred to another institution.

1.3 Implementation of UG course structure:

1. For First year: Student has to select 4 different subject among the subjects offered by the College /Institute.
2. For Second year: Student has to select 3 different subject among 4 subject chosen in first year
3. For Third year: Student has to select only 1 subject among the 3 subject opted in second year
4. CGPA will be calculated on the basis of core 132 credits only
5. Each theory credit is equivalent to 15 clock hours of teaching and each practical credit is equivalent to 30 clock hours of teaching in a semester.
6. There is 15 weeks of teacher-student interaction during the semester.
7. The 15 week is divided into 12 weeks teaching and 3 weeks for continuous assessment including preparation time to students during the semester.
8. The workload will be calculated on the basis of 12 weeks teaching only.
9. For the purpose of computation of work-load the following mechanism may be adopted as per UGC guidelines:
 - i) 1 Credit = 1 Theory period of one hour fifteen minute duration per week
 - ii) 1 Credit = 1 Tutorial period of one hour fifteen minute duration per week
 - iii) 1 Credit = 1 Practical period of two hour ten minute duration per week
10. Each theory Lecture time for FY, SY, TY is of 50 min. (3 Lectures per week for 2 credit course)
11. Each practical session time for FY is of 3 hour 15 minutes = 195 min
12. Each practical session time for SY & TY is of 4 hour 20 minutes = 260 min
13. Exam pattern: University assessment 70 % and continuous internal assessment 30 %.
14. For Internal examination minimum two tests per paper of which one has to be written test of 10 marks.
15. Methods of assessment for Internal exams: Seminars, Viva-voce, Projects, Surveys, Field visits, Tutorials, Assignment, Group Discussion.

2. UG Programme Structure:

2.1 Each B.Sc. programme is of 3 years duration. The minimum total no. of credits requirement for each programme is 132. In the structure, the credits are distributed over 6 semesters. The open elective included, gives the student a wide choice of subjects from other programmes. The Credit structure for B.Sc. programme is given below in Table 1.

1.3 Implementation of UG course structure

1. For first year student has to select 4 different subject among the subjects offered by the college institution.
2. For second year student has to select 3 different subject among 4 subject chosen in first year.
3. For third year student has to select only 1 subject among the 3 subject opted in second year.
4. CGPA will be calculated on the basis of core 100 credits only.
5. Each theory credit is equivalent to 15 clock hours of teaching and each practical credit is equivalent to 10 clock hours of teaching in a semester.
6. There is 15 weeks of student-student interaction during the semester.
7. The 15 week is divided into 12 weeks teaching and 3 weeks for continuous assessment including presentation time to students during the semester.
8. The workload will be calculated on the basis of 12 weeks teaching only.
9. For the purpose of computation of workload the following mechanism may be adopted as per UGC guidelines.
 - (i) Credit = 1 Theory period of one hour fifteen minute duration per week.
 - (ii) Credit = 1 Tutorial period of one hour fifteen minute duration per week.
 - (iii) Credit = 1 Practical period of two hour ten minute duration per week.

2.3 Outlines of Choice Based Credit System [Detailed description of the courses]:

- a) **Core Course**(14 for honours courses; 4 discipline specific papers each for regular courses and 2 papers each for English and Hindi/MIL in B.A./B.Com): The papers under this category are going to be taught uniformly across all universities with 30% deviation proposed in the draft. The purpose of fixing core papers is to ensure that all the institutions follow a minimum common curriculum so that each institution/university adheres to common minimum standard. Also the course designed for papers under this category aim to cover the basics that a student is expected to imbibe in that particular discipline. A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.
- b) **Elective Course**: Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.
- i. **Discipline Specific Elective (DSE) Course**(4 for honours courses and 2 each for regular courses): Elective courses offered under the main discipline/subject of study is referred to as Discipline Specific Elective. The list provided under this category are suggestive in nature and each University has complete freedom to suggest their own papers under this category based on their expertise, specialization, requirements, scope and need. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).
 - ii. **Dissertation/Project***: An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on his own with an advisory support by a teacher/faculty member is called dissertation/project.
 - iii. **Generic Elective (GE) Course**(4 for honours courses and 2 each for B.A./B.Com. regular courses): An elective course chosen from an unrelated discipline/subject, with an intention to seek exposure beyond discipline/s of choice is called a Generic Elective. The purpose of this category of papers is to offer the students the option to explore disciplines of interest beyond the choices they make in Core and Discipline Specific Elective papers. The list provided under this category are suggestive in nature and each University has complete freedom to suggest their own papers under this category based on their expertise, specialization, requirements, scope and need.
- P.S.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.
- c) **Ability Enhancement Courses (AEC)**: The Ability Enhancement (AE) Courses may be of two kinds: Ability Enhancement Compulsory Courses (AECC) and Skill Enhancement Courses (SEC). "AECC" courses are the courses based upon the content that leads to Knowledge enhancement; i. Environmental Science and ii. English/MIL(Marathi/Hindi) Communication. These are mandatory for all disciplines. SEC courses are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.

i. **Ability Enhancement Compulsory Courses (AECC):** Environmental Science, English Communication/Hindi Communication/MIL Communication.

ii. **Skill Enhancement Courses (SEC)**(minimum 2 for honours courses and 4 for regular courses): These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based knowledge and should contain both theory and lab/hands-on/training/field work. The main purpose of these courses is to provide students life-skills in hands-on mode so as to increase their employability. The list provided under this category are suggestive in nature and each University has complete freedom to suggest their own papers under this category based on their expertise, specialization, requirements, scope and need.

d) **Practical/tutorials** (One each with every core and discipline/generic specific elective paper): The list of practical provided is suggestive in nature and each university has the freedom to add/subtract/edit practical from the list depending on their faculty and infrastructure available. Addition will however be of similar nature.

e) **Introducing Research Component in Under-Graduate Courses**

Project work/Dissertation is considered as a special course involving application of knowledge in solving / analyzing /exploring a real life situation / difficult problem. A Project/Dissertation work would be of 6 credits. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.

7. PERFORMANCE INDICES:

The semester end grade sheet will contain grades for the courses along with titles and SGPA. Final grade sheet and transcript shall contain CGPA.

7.1 Semester Grade Point Average (SGPA) -The performance of a student in a semester is indicated by a number called the Semester Grade Point Average (SGPA). The SGPA is the weighted average of the grade points obtained in all the courses, seminars and projects registered by the student during the semester.

$$SGPA = \frac{\sum_{i=1}^p C_i G_i}{\sum_{i=1}^p C_i}$$

$$SGPA = \frac{\sum \text{Grade Points Earned} \times \text{Credits for each course}}{\text{Total Credits}}$$

For Example: suppose in a given semester a student has registered for five courses having credits C₁, C₂, C₃, C₄, C₅ and his / her grade points in those courses are G₁, G₂, G₃, G₄, G₅ respectively.

Then students

$$SGPA = \frac{C_1 G_1 + C_2 G_2 + C_3 G_3 + C_4 G_4 + C_5 G_5}{C_1 + C_2 + C_3 + C_4 + C_5}$$

SGPA is calculated up to two decimal places by rounding off.

7.2 Course Grade Point Average (CGPA)- The CGPA is the weighted average of the grade points obtained in all the courses (Theory/term work/practical/oral/presentation) of first semester to sixth semester for the students admitted in the First year and third to sixth semester for the students directly admitted at Second year. It is calculated in the same manner as the SGPA.

In case of a student passing a failed course or in case of improvement, the earlier grade would be replaced by the new grade in calculation of the SGPA and CGPA.

8. RESULT:

Based on the performance of the student in the semester examinations, the Savitribai Phule Pune University will declare the results and issue the Semester Grade sheets.

The class shall be awarded to a student on the CGPA calculated as mentioned in Rule no. 6.1. The award of the class shall be as per Table 5. and corresponding percentage calculation for the CGPA is given in Table 6. along with all details and examples.

Table 5
CGPA distribution and corresponding class of the degree awarded

Sr. No	CGPA	Class of the Degree awarded
1	9.50 or More than 9.50	Outstanding (O)
2	8.50 or more but less than 9.50	Excellent (A+)
3	7.50 or more but less than 8.50	Very Good (A)
4	6.25 or more but less than 7.50	Good (B+)
5	5.25 or more but less than 6.25	Above Average (B)
6	4.75 or more but less than 5.25	Average (C)
7	4.00 or more but less than 4.75	Pass (D)

Table 6

Percentage calculation of a corresponding CGPA

For the calculation of Percentage from CGPA following equation can be used.

$$\% \text{ of Marks} = \begin{cases} \text{if O grade then } 20 \times \text{CGPA} - 100 \\ \text{if A + grade then } 10 \times \text{CGPA} - 5 \\ \text{if A grade then } 10 \times \text{CGPA} - 5 \\ \text{if B + grade then } 12 \times \text{CGPA} - 20 \\ \text{if B grade then } 5 \times \text{CGPA} + 23.75 \\ \text{if C grade then } 10 \times \text{CGPA} - 2.50 \\ \text{if D grade then } 6.6 \times \text{CGPA} + 13.6 \end{cases}$$

The factor considered in the above equations are evaluated from the grade point and marks distribution given in Table 3. The examples of the calculation of percentage are given in the Table 7.

Table 7

Some examples of CGPA to percentage calculations

Obtained CGPA	Equation	Percentage (%)	Grade
10	$20 \times 10 - 100 = 100$	100	O
9.75	$20 \times 9.75 - 100 = 95$	95	O
9.5	$20 \times 9.5 - 100 = 90$	90	O
9.0	$10 \times 9 - 5 = 85$	85	A+
8.0	$10 \times 8.0 - 5 = 75$	75	A
7.0	$12 \times 7.0 - 20 = 64$	64	B+
6.67	$12 \times 6.67 - 20 = 60.04$	60.04	B+
6.25	$12 \times 6.25 - 20 = 55$	55	B+
5.25	$5 \times 5.25 + 23.75 = 50$	50	B
4.75	$10 \times 4.75 - 2.50 = 45$	45	C
4.0	$6.6 \times 4.0 + 13.6 = 40$	40	D

While declaring the result, the existing relevant ordinances are applicable. There is also a provision for verification and revaluation. In case of verification, the existing rules will be applicable. The revaluation result will be adopted if there is a change of at least 10% marks and in the grade of the course.

For grade improvement a student will have to take minimum 30% of the requisite number of credits for the concerned degree. These courses will be theory courses from the parent department. Grade improvement programme will be implemented at the end of the academic year. A student can opt for the grade improvement programme only after the declaration of the result for his/her final semester exam, i.e., at the end of the next academic year after passing the final examination and within two years of completion of the degree and only once.

Grade (A+)	4.00 or more but less than 4.50
Grade (A)	3.50 or more but less than 4.00
Grade (B+)	3.00 or more but less than 3.50
Grade (B)	2.50 or more but less than 3.00
Grade (C)	2.00 or more but less than 2.50
Pass (D)	1.00 or more but less than 2.00

Table 6

Percentage calculation of a corresponding CGPA

For the calculation of Percentage from CGPA, following equation can be used

$$\% \text{ of Marks} = \left(\begin{array}{l} \text{If B grade then } 6.6 \times \text{CGPA} + 13.8 \\ \text{If C grade then } 1.0 \times \text{CGPA} - 2.0 \\ \text{If B grade then } 2 \times \text{CGPA} + 23.75 \\ \text{If B + grade then } 7.2 \times \text{CGPA} - 18 \\ \text{If A grade then } 1.0 \times \text{CGPA} - 1 \\ \text{If A + grade then } 1.8 \times \text{CGPA} - 2 \\ \text{If O grade then } 2.0 \times \text{CGPA} - 10.0 \end{array} \right)$$

The grade assigned in the above question are assigned from the grade point and marks distribution given in Table 1. The example of the calculation of percentage are given in the Table 7.

Table 7

Some examples of CGPA to percentage calculation

Grade	Percentage (%)	Formula	Calculated CGPA
O	100	$2.0 \times 10 - 10.0 = 10$	10
O	92	$2.0 \times 7.2 - 10.0 = 9.2$	6.75
O	90	$2.0 \times 5.2 - 10.0 = 9.0$	6.5
A+	82	$1.0 \times 8.2 - 2 = 8.2$	6.2
A	72	$1.0 \times 8.2 - 2 = 7.2$	6.0
B+	64	$1.2 \times 7.0 - 1.0 = 6.4$	5.7
B+	60.04	$1.2 \times 6.5 - 1.0 = 60.04$	5.5
B+	58	$1.2 \times 6.5 - 1.0 = 58$	5.25
B	50	$2.0 \times 2.5 - 1.0 = 50$	4.75
C	42	$1.0 \times 4.2 - 1 = 4.2$	4.0
B	40	$6.6 \times 0.6 - 1.0 = 40$	4.0

While declaring the result, the existing review ordinance are applicable. There is also provision for verification and revision in case of verification, the existing rules applicable. The evaluation result will be adopted if there is a change of at least 10% and in the grade of the course.

 विभागासध्ये द्वितीय वर्षात शिकत आहे. कोरोनामुळे व मार्गीत
 लॉकडाऊनमुळे मला मार्गीत तृतीय सत्रातील परिक्षा फॉर्म भरणे
 आला नाही. विद्यापिठाने तृतीय सत्र व चालुय सत्र वेळी
 एकसेवत देण्याची परवानगी दिली आहे. परंतु माझ्या हल्लीच्या
 चालुय सत्राचे फॉर्म भरत आसताना, फक्त तृतीय सत्र
 दाखवत आहे.

वरील कुराणास्तव मी आपणास नमूद विमली
 करील आहे की मला तृतीय व चालुय सत्राचे परिक्षा फॉर्म
 भरण्यास परवानगी मिळावी व परिक्षा देण्याची परवानगी
 मिळावी.
